**Parents and guardians retain responsibility for
all of their children at all times.**

The CCHS Support Group would like to thank the Yorkhill Children's Foundation, Liberty Bishop Contractor Services Ltd, Avery Biomedical Devices, B & D Electromedical LLP, the family of the late Hazel Carnell, and Knightstone for their funding towards this conference. Without their generous support this day would not have been possible.

We would also like to thank Dr Martin Samuels, Dr Jasveer Mangat, Dr Dilys Gore, Emily Rigg, Dr Francois Abel and the Warwickshire Community Nursing Team for joining us today and leading the discussions.

Thank you to Jane Noyes and David Widdas for providing us with invaluable help and advice towards the organisation and planning of the day.

The CCHS Support group provides support for and links families affected by CCHS throughout the UK.
